A maximum of 6 semester hours of Special Topics courses may be included in this minor program or the student may complete 3 semester hours of Special Topics and 3 semester hours of either Special Problems or Undergraduate Research. Students may not use 6 semester hours of either Special Problems or Undergraduate Research for this minor.

A maximum of 3 semester hours of transfer credit may be used to satisfy the course requirements for this minor. This includes courses taken at another institution or credit earned through the AP or IB program, assuming the scores meet Georgia Tech minimum standards. All courses counting toward the minor must be taken on a letter-grade basis and completed with a grade of C (2.00) or better.

This minor is designed to increase the breadth of students’ education. Therefore it is open to all students except those in the CM and LMC majors. CM and LMC majors interested in this topic should consult with their advisors about electing the appropriate degree thread.

It is the **major advisor’s responsibility** to verify that students are using only courses from the designated block(s) from the student’s major field of study that are allowed to satisfy a minor program, that they are not using any Core Area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Any free elective course used to satisfy the course requirements of the student’s major degree program may also be used to satisfy the course requirements for a minor.
