In addition to the guidelines listed below, you are responsible for reviewing and following the general guidelines for minors: [http://catalog.gatech.edu/academics/minors/](http://catalog.gatech.edu/academics/minors/)

The EAS minor with an Environmental Chemistry track is for students in majors outside of EAS that seek to understand and address environmental problems within the context of chemical systems. Prerequisites required for some of the classes listed below. This minor must comprise at least 15 semester hours, of which at least 9 semester hours are upper-division coursework (numbered 3000 or above).

A. Required Course:
   EAS 3620, 4740

B. Electives: Choose 8 credit hours:
   EAS 3110, 4420, 4602, 4610, *4699, 4795

*A maximum of 3 semester hours of Undergraduate Research hours (4699) may be included in the EAS minor program.

A maximum of 3 semester hours of transfer credit may be used to satisfy the course requirements for a minor. This includes courses taken at another institution or credit earned through the AP or IB program, assuming the scores meet Georgia Tech minimum standards.

All courses counting toward the minor must be taken on a letter-grade basis and must be completed with a grade of C (2.00) or better.

It is the major advisor’s responsibility to verify that students are using only courses from the designated block(s) from the student’s major field of study that are allowed to satisfy a minor program, that they are not using any Core Area A-E courses (including humanities and social sciences), and that they are not using any courses for more than one minor or certificate. Any free elective course used to satisfy the course requirements of the student’s major degree program may also be used to satisfy the course requirements for a minor.

List the courses completed for the requested minor:
